Povidone-Iodine Prep Spray

Pre-Operative Patient Prep

- Controlled spray provides an alternative to the final step of the scrub-paint prep
- Uniformly coats hard-to-access areas quickly with less pooling
- Spray mist application is ideal for orthopedic and gynecological procedures

Minor Wounds

A no-touch application for:

- Abrasions
- Lacerations
- Burns

- Fast application...Decreases patient prep time
- Fine mist...Even coating results in faster drying
- Less runoff and pooling...Reduced chance of irritation
- 10% Povidone-Iodine...Effective broad-spectrum activity
- 2 Ounce bottle...Covers a large area
- Single-use...Prevents cross-contamination
